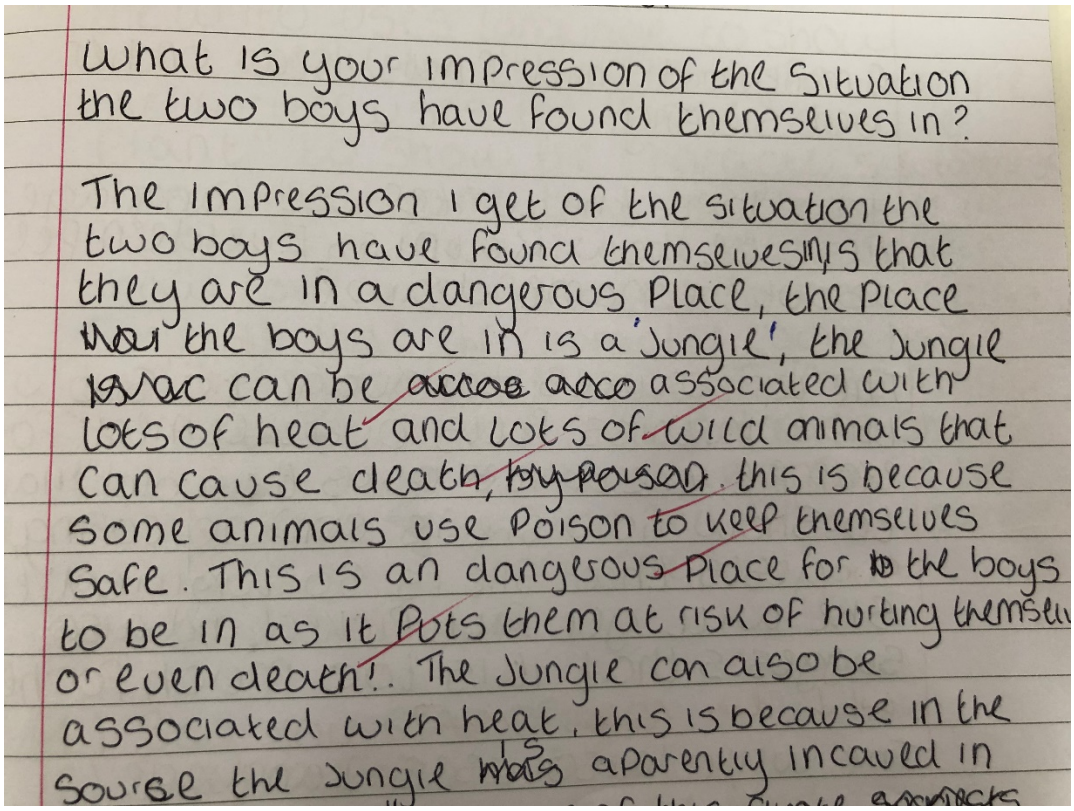
Case Study 1 – Mia

Mia* joined the College in September 2019, re-taking her English Language GCSE with us for the first time.

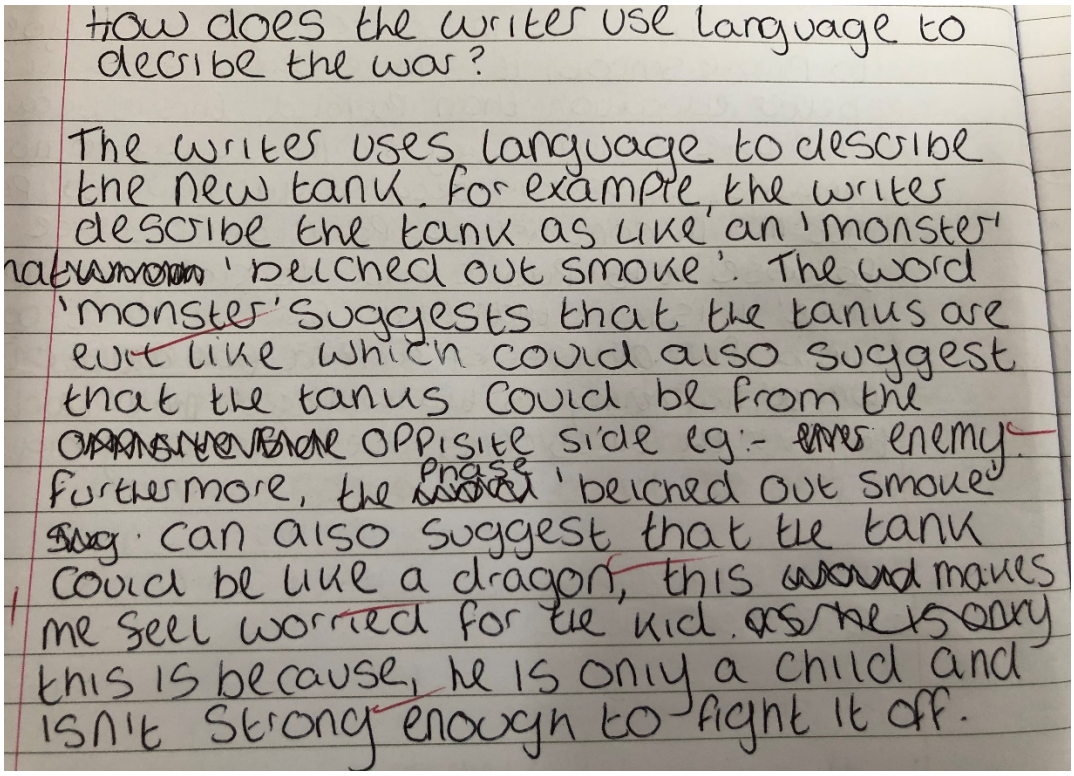
Before the use of the framework:



What is your impression of the situation the two boys have found themselves in?

The impression I get of the situation the two boys have found themselves in is that they are in a dangerous place, the place that the boys are in is a 'jungle', the jungle ~~is~~ can be ~~also~~ also associated with lots of heat and lots of wild animals that can cause death, ~~by poison~~. this is because some animals use poison to keep themselves safe. This is an dangerous place for ~~to~~ the boys to be in as it puts them at risk of hurting themselves or even death!. The jungle can also be associated with heat, this is because in the sourse the jungle ~~was~~ is aparently incaved in

Improved work with the applied framework:



How does the writer use language to decribe the war?

The writer uses language to describe the new tank. For example, the writer describe the tank as like an 'monster' ~~that~~ 'belched out smoke'. The word 'monster' suggests that the tanks are evil like which could also suggest that the tanks could be from the ~~opposite~~ opposite side eg:- ~~the~~ enemy. Furthermore, the ~~word~~ phase 'belched out smoke' ~~sug~~ can also suggest that the tank could be like a dragon, this ~~word~~ makes me feel worried for the kid. ~~as he is only~~ this is because, he is only a child and isn't strong enough to fight it off.
