

## Teaching Functional Skills Maths: Level 5 CPD Module

This is aimed at both new teachers of Functional Skills maths and those already teaching but possibly recently transferred from other areas, including vocational teachers and assessors. It is particularly suitable for those who do not currently hold a specific teaching qualification in maths. It is designed to meet the needs of all parts of the sector, including independent training providers, FE colleges, offender learning and adult and community education.

### Who is the course for?

- new teachers of Functional Skills maths
- experienced teachers and trainers who have recently transferred from other areas to teach maths, including vocational teachers and assessors.
- those who do not currently hold a specific teaching qualification in maths.

### Learning outcomes:

You will be able to:

- motivate and engage reluctant learners and address barriers to maths learning
- plan teaching and learning in accordance with the new subject content for Functional Skills maths
- use active approaches to develop learners' skills
- contextualise and apply maths to vocational learning and meaningful and everyday situations develop learners' problem solving and decision-making skills
- use assessment for learning approaches to support Functional Maths prepare learners for the requirements of summative assessment.

### Cost:

Individual (SET member) : £170

Individual (Non-SET member): £200

Hosting in-house (6-10 staff): £1,200

In-house (>16 staff): £1,800

Accreditation: additional £215 per person
