

# National Development Day: Engaging and Motivating Online

You will explore approaches for engaging and motivating maths, English and ESOL learners online. This national development day draws on research-based approaches and emerging insights from the post-16 sector. By the end of the day, you will have a range of new ideas and practical strategies for supporting learners to feel more confident about their abilities in English and maths and take an active role in their learning.

## Who is the course for?

- Maths, English and ESOL Teachers (all levels)
- Classroom assistants
- Practitioner researchers
- Vocational/ technical teachers embedding maths, English and digital literacies
- Managers
- Trainers/ assessors

## Cost

£100 (or £85 for SET members)

## Outcomes

By the end of the day, you will have developed your skills and knowledge in how to:

- give learners the confidence to actively engage with online learning;
- understand how learners feel about English and maths and how this should impact on lesson planning;
- plan learner-centred approaches that grow and develop online learning communities;
- plan authentic activities that engage and motivate learners and develop their resilience; and
- use coaching and resilience strategies that encourage learners to engage.  
... with special consideration to keeping learners safe online.

## Description of Content

During the day, in order to develop your practice in engaging and motivating online, you will:

- learn from research and intelligence from the sector
- draw on expertise from practitioners in different settings
- take part in a range of activities designed to provide you with practical strategies and resources
- reflect on how you will implement your learning
