

# Developing English in vocational and technical contexts

This course will support technical and vocational tutors, trainers and assessors to identify naturally occurring opportunities to develop learners' English skills which are needed for them to successfully complete their study programme, apprenticeship or vocational/ technical course.

## Training aim:

Participants will be able plan and deliver teaching and learning activities which develop learners' vocationally or technically relevant English skills to meet their assessed needs

## Who is the course for?

This course is suitable for technical and vocational tutors and assessors.

## Learning outcomes:

By the end of the session you will have:

- experienced a range of activities which have been used with post-16 learners
- developed learners' communication skills in the context of their planned occupation
- identified naturally-occurring opportunities to develop learners' English skills

## Cost:

Blended learning (1-day equivalent) in-house course: £500
