

# Maths: Key Topics Learning Find Challenging

This course will investigate the maths topics learners find challenging and consider strategies to support learning. A range of resources and best practice approaches will be discussed. Throughout the training structuring learning to encourage learners to tackle, remember and secure their learning will be considered.

## Training aim:

- To consider how to promote mathematical thinking amongst your learners in order to tackle their maths challenges.
- To encourage maths learners to embrace their mistakes
- To support teachers and tutors to understand their learners through their mistakes.
- To consider how 'mastery strategies' can be incorporated into practice.

## Who is the course for?

This course is suitable for GCSE and FS maths teachers.

## Learning outcomes:

By the end of the session, you will have:

- considered the misconceptions which hinder learners' understanding and how to tackle them
- considered a variety of strategies to support your learners with these challenging topics including 'mastery strategies'
- a range of resources to use with your learners.

## Cost:

Blended learning (1-day equivalent) in-house course: £500
