

Maths: Level Crossing

During this course practitioners will have the opportunity to discuss strategies to support their learners to move their learning forward to be successful with both GCSE and Functional Skills maths. This includes tackling problem-solving questions, keeping learners motivated and looking at some of the key issues as to why supporting learners to re-sit successfully can be so challenging.

Training aim:

- To introduce practitioners to a range of strategies, approaches and activities to support their learners needs.
- To explore how to use teaching, learning and assessment approaches that promote effective practice.
- To consider revision tools.

Who is the course for?

This course is suitable for GCSE and FS maths teachers.

Learning outcomes:

- By the end of the session, you will have considered:
- how to support learners to tackle problem solving questions using a range of strategies.
 - how to build on learners' prior knowledge
 - barriers to success and the importance of engaging learners and building their confidence.
 - resources to support learning and test preparation

Cost:

Blended learning (1-day equivalent) in-house course: £500
