

Appendix 6 – Learner reflections

A learner said:

"Today's learning about Google Sheets was really informative, as I am already doing my Level 1 maths and that helps me doing my tables and graphs. I enjoyed working together with my classmates and the way our tutor guides us. Everyone showed positive attitude and enthusiasm in the class. I'd love to have more work sheets for practice."

One learner said in the feedback:

"Today's lesson was very informative, I have got the basics of it, I just need more practice and I will be able to use this skill in my work I carry out for the City Council, thank you."
